

DECLARATION OF CONSENT IN REGARD TO PROJECT LEGEKUNST

Dear parents

According to the data protection law we need your consent in order to use pictures/videos/sound files including your child, when used for other reasons than internal use between the personnel in the day care institution.

Thus, we are asking for your consent, so we in connection with the project may share pictures/video- or sound recordings including your child's participation in LegeKunst. The content will not be offensive or contain sensitive information.

Your child's day care institution is part of the nationwide project "LegeKunst". The self-governing institution Kulturprinsen runs the project, and the goal is to advance children's play and development through art and culture.

LegeKunst has initiated action-learning groups in your day care institution, including the personnel of the institution, participating artists/culture disseminators/counsellors/students and possibly also participating researchers from the educational institutions that are involved in the nationwide project.

In relation to the dissemination and evaluation of the project, it is relevant to share the day care's work, ideas and discoveries with the steering group, research group and project management group which has the overall responsibility for LegeKunst.

At the same time, research groups from different educational institutions will be following the project with the aim of researching how art and culture can create quality and advance play, development and new communities between the children in the day care institution.

.....

DECLARATION OF CONSENT

I hereby give my consent to the use of images, videos and sound recordings of my child

_____ (the child's full name) in relation to:

(mark with x)

YES NO
